

AURORA SUMMER SCHOOL

EMERGING FUTURES : SOCIETAL INNOVATION MEETS FUTURES STUDIES

Embark on a journey into the world of «Futures Literacy» with our cutting-edge summer course, specifically for forward-thinking bachelor's students! This UNESCO-developed course, recognised as essential for the 21st century, equips you to navigate and innovate within the complex tapestry of tomorrow. Engage in hands-on experiences with a Futures Literacy Lab, delve into theoretical foundations, and master facilitation techniques that will prepare you to take the lead. Our comprehensive readings will anchor your journey through social foresight—an interdisciplinary field at the frontier of anticipating social change. Discover the transformative power of systemic thinking and strategic foresight, and learn how to shape policies and strategies for an uncertain future. Enroll now to be a part of shaping the next wave of societal innovation!
