What is OpenAIRE Connect?

In this online session, we will present the Aurora portal and its main functionalities, including: discovering research outputs across Aurora universities; exploring institutional and thematic collections; increasing the visibility of research results; identifying expertise and potential collaboration opportunities across the alliance; understanding how OpenAIRE CONNECT supports Open Science practices

Who should attend?

This event series brings together researchers and interested research support staff from all subject areas. Early career researchers, as well as experienced academics, are welcome to attend.
